TECHNICAL SKILLS

Programming

Languages:

- Python
- C#
- JavaScript
- HTML/CSS

Software & Tools:

Web Development:

HTML, CSS, JavaScript,
Bootstrap

Software Development:

C#, Python, Visual Studio,
Git

Networking:

Cisco Packet Tracer,
TCP/IP, LAN/WAN
configurations

SUMMARY

As a first-year Computer Science undergraduate with a passion for software development, networking, and technology innovation, I bring a strong technical foundation combined with creative design abilities. I am proficient in Python and C#, having developed a library management system to digitize manual operations and created several websites as part of academic and personal projects. I also have hands-on experience in networking through Cisco Packet Tracer and am highly skilled in Microsoft Office applications (Word, Excel, PowerPoint) for streamlining tasks and improving productivity.

In addition to my technical expertise, I am proficient in using Canva to design flyers, presentations, and other promotional materials, further showcasing my ability to blend creativity with technical tasks.

My leadership experience in Toastmasters includes placing first at the provincial level in speech contests, second at the club level, and being an active member, where I have hosted events and contributed to the club's growth.

Known for my time management, multitasking, and problem-solving skills, I thrive under pressure and consistently deliver high-quality results. I have also demonstrated entrepreneurial skills by securing second place in a hackathon, where I pitched a tech-driven business idea to provide education to rural communities in Sri Lanka.

I am eager to apply my technical, creative, and leadership abilities in an IT role, where I can contribute to meaningful projects and continue to grow within a dynamic team.

EDUCATION

Bachelor of Science in Computer Science (BSc) - first year

Completed first year; continuing with a focus on Cybersecurity and Networking from second year onwards.

IT Foundation Program Sri Lanka Institute of Information Technology (SLIIT) | Kandy, Sri Lanka 2023–2024

Completed a foundational program in Information Technology, covering key subjects in programming, networking, and IT fundamentals.

Microsoft Office Suite:

Word, Excel, PowerPoint

Design Tools:

Canva (Flyer,
Presentation Design)

Databases:

Basic SQL

Operating Systems:

Windows, Linux (basic
knowledge)

OTHER SKILLS

Public Speaking

Leadership

Communication

Time Management

Problem Solving

Collaboration

Adaptability

EXPERIENCE

Software Developer (Personal Projects)Self-Initiated | 2023–Present

- **OakTown Library System:** Designed and developed a C# application to transition a manual library system to a fully digital one, streamlining operations and improving efficiency.
- **GreenBite Website:** Developed a user-friendly website for a food delivery startup, implementing HTML, CSS, and JavaScript to enhance user experience and functionality.
- **Hackathon:** Secured second place in a regional hackathon by pitching a tech-driven business idea aimed at providing education to rural communities in Sri Lanka.

Toastmasters Leadership & Technical ContributionsToastmasters International | 2025–Present

- **Public Speaking:** Placed second at the club level and gained recognition at the provincial level in various English speech competitions. Hosted multiple club events, improving my public speaking and leadership abilities.
 - **Event PR Design:** Created promotional materials and flyers using Canva for Toastmasters events, enhancing club visibility and engagement.
 - **Leadership & Team Roles:** Actively contributed to multiple teams within Toastmasters, including the Logistics Team, Treasurer Team, and Session Organizing Team, where I helped manage events, streamline operations, and handle budgeting and resource coordination.
 - **Leadership Contributions:** Served as Toastmaster of the Day for events and am currently part of the shadow team for the Vice President of Public Relations.
